- Material UI
- Object Oriented Programming.

CERTIFICATES

- Freelancing certificate from Digiskill
- Developing Cloud Apps with Node JS and React, IBM course.
- Volunteer Work at Wah Medical College

INTERESTS

- Development.
- Travelling.
- Research Work.
- Football
- Artificial Intelligence.

SOFTWARE ENGINEER

As an ambitious and driven software engineer, with a solid foundation in coding and problem-solving. My insatiable curiosity and commitment to learning have already led me to craft a captivating web app during my studies, showcasing my determination and creativity. With a knack for teamwork and a hunger to excel, I'm ready to dive into real-world projects and contribute fresh perspectives

EXPERIENCE

Internee Engineer | Web Gennie

07/2023 – 09/2023

- Leading **Next.js** projects with **Vercel** deployments .
- Specializing in **Reactjs Next js**, alongside responsive design using **Tailwind CSS**, **Material UI**, and diverse **React** libraries.
- Actively contributed to team discussions and problem-solving sessions, fostering a collaborative environment that encouraged knowledge sharing and innovation.
- Demonstrated effective teamwork by seamlessly integrating individual contributions with those of fellow interns, resulting in the successful implementation of functionalities and a valuable learning experience for all team members.

FreeLancer | Fiverr

08/2022 – 09/2023

- Experienced animator proficient in Vyond, adept at creating engaging animated videos that effectively communicate messages and captivate audiences.
- Leveraged Vyond's powerful features to produce compelling animations for various clients, ranging from educational content to marketing campaigns.
- Demonstrated creativity and attention to detail in crafting visually appealing animations that bring ideas to life and leave a lasting impact on viewers.

Frontend Developer, NEP NIC UET, Taxila | Apna Tutor Startup 09/2022 - 03/2023

- Spearheaded the entire front-end evolution of Apna Tutor's website, leveraging **React.js** and **Tailwindcss** to engineer a seamless user experience.
- Skillfully orchestrated the development of dynamic and engaging user interfaces, enhancing both aesthetics and operational sophistication.
- Unleashed interactive design prowess, crafting captivating interfaces that amplify engagement, bolstering my cutting-edge web development expertise.

EDUCATION

Bachelor of Science in Software Engineering

10/2020- 05/2024

University of Engineering and Technology, Taxila

CGPA: 2.9

ACADEMIC PROJECT

1. VOXIFY (Modern Ecommerce Store) | Final Year Project (MERN STACK).

- Spearheaded the development of Voxify, a cutting-edge single vendor e-commerce store, utilizing React for dynamic frontend interactions and Tailwind CSS for sleek, responsive design.
- Seamlessly integrated React's component-based architecture with Tailwind CSS's utility-first approach, ensuring an intuitive user experience and visually stunning interface. Orchestrated the implementation of advanced e-commerce functionalities, leveraging
- React and Tailwind CSS to deliver a seamless shopping experience and elevate the online retail landscape.
